

About Us

Â

The Herbalist has been honoured to serve over 10,000 happy, satisfied customers.

Feel the wonderful difference quality natural products, from The Herbalist, make for you and your loved ones.

The Herbalist insists on all our supplier's products being subjected to a series of in-depth quality control tests to ensure purity, potency and cleanliness.

The Herbalist's bottom line is: Superior quality natural supplements = ResultsAs a child, I learned about natural living on the farm from my parents and grandparents. In 1965, I entered the School of Pharmacy, University of Manitoba in Winnipeg, Manitoba, Canada, and graduated with a B.Sc. Pharmacy. My goal was to operate a pharmacy to give customers a holistic advantage. In the early 70's, my business partner and I created a pharmacy offering natural health products and pharmaceuticals, with an emphasis on natural products. To provide a more knowledgeable service to our customers, I earned my Master Herbalist diploma from Emerson College of Herbology.

Are you looking for cheap, unreliable herbal and vitamin products from unpredictable sources of unknown quality?

Do you want advice from inexperienced people?

WE ARE NOT WHAT YOU ARE LOOKING FOR!

SO... WHO ARE WE?

As customers in our holistic pharmacy used the natural products, and minimized their dependence on prescribed and over-the-counter drugs, they achieved a much better level of health. This encouraged me to sell my share of the holistic pharmacy, and, thanks to a wonderful and supportive wife and family, I began my full time study and work in complementary health as "THE HERBALIST", which continues to this day.

There are too many people using too many drugs for too long. At "The Herbalist", our goal is to help you avoid being overly dependent on drugs. To help you achieve this, we travel worldwide to teach and learn from experienced holistic healers. "The Herbalist" also seeks the most up-to-date information from leading-edge publications and respected researchers.

In order for YOU to realize the maximum possible benefits, we at "The Herbalist" do our utmost to provide superior high-quality and unique products from trusted manufacturers maintaining strict North American pharmaceutical standards. A BIG THANK YOU to all my teachers and the thousands of conscientious clients we have worked with over the years. You are a great example to your fellow person!

Are you sick and tired of being sick and tired even after using herbs and vitamins? Put The Herbalist's products to the test. Excellence in product quality makes a world of difference.
